

## About Us

About Communications is a privately held Canadian service provider of leading telecom and IT solutions designed to meet the unique service needs of small and medium-sized businesses.

Riding on an extremely reliable, high speed, dedicated digital access network, our suite of phone, internet and IT solutions give smaller businesses affordable access to the latest feature-rich services previously only available to larger enterprises. Our goal is to make it simple for smaller businesses to gain a competitive edge by offering easy voice and data solutions that improve their customer's experience, increase their employee productivity, cut their costs, and grow with their businesses. We were founded by a team of people with years of experience in the telecommunications industry. Their goal was to create a company that customers could rely on for advice and quality products and services. At the centre of our corporate culture is a passionate commitment to superb customer service. It's part of our DNA. We will bend over backwards to ensure our customers are looked after. We are located in the GTA, and are servicing customers headquartered throughout Southern Ontario.
