

## Integrated Communication Services

Do you have 10 -100 employees?

Take control and make your business more productive and competitive through a feature rich business phone system and internet service. We provide big business functionality tailored specifically for smaller businesses. And we make it easy.

About Communications has the right mix of phone, voice, and I.T. Services for your business:

aboutphones

- A full range of state-of-the-art phone system capabilities which will help you, save time, improve customer satisfaction and remove unnecessary costs

aboutinternet

- High Speed Internet and email services for the security and reliability you need

aboutIT

- I.T. services for worry-free remote management of your infrastructure
- About Communications offers packages that combine phone, internet and IT services under one plan to allow you to fully benefit from all aspects of your communications infrastructure.
