

Business Needs

We cater to smaller businesses all with varying circumstances and needs. Below are examples of just a few, along with some ways that we can help make things easier, more productive or more cost effective for you.

- Remote Workers With our system it's as if your remote employees/colleagues are right there in the office.
- Just dial their extension to reach them
- No long distance charges
- Instantly page one or all
- All on one company invoice Customer Contact Critical If a live answer for all incoming calls is important to your business, our system can:
 - Ring multiple phones simultaneously or consecutively until a call is answered.
 - Ring your office and cell phones simultaneously. Road Warriors When you, or your sales reps are on the road;
 - Answer your phone wherever you are.
 - With "Twinning" your desk and cell phones will ring at the same time
 - Remotely and safely access files and emails Conference Calls & Online Product Demos Need to meet virtually with your distributed team?
 - Audio or web conferencing, your choice
 - Need to present products or proposals remotely?
 - Web conferencing makes it easy to bring your message to life. Multiple Offices With our system it's as if your remote employees/colleagues are right there in the office.
 - Make phone calls between offices as often as you like. It's free. Uploading Large Files If your business relies on the transfer of large quantities of electronic content our network will allow you to:
 - Upload large file quickly with our structured and reliable high speed internet access (T1)
